a Poison-yet-When the Kidneys are Diseased, the Human Body is a Veritable Poison Factory.

Uric acid is a poison that attacks the weakest part first. A brain worker will have nerve trouble or rheumatism. A strong, healthy-looking person will be liable to gravel or stone, heart trouble, dropsy or gout.

When the kidneys are flut they need a always gesting into the blood from your food and from the wear and tear of the body. But the kidneys are fill, they need a sarry gesting into the blood from your food and from the wear and tear of the body. But the kidneys and the to out and keep the blood on the best of the sarry twenty-four bours they remove about 500 organic or from or points and three plant of water from the blood.

But when the kidneys are weat, they leaves some of this poisonous wates in the blood and it gets carried to all parts of the system. It is ablect it bad, your land but the strength of the kidneys and the water flow to be a strength of the kidneys and the sarry the same that the strength of the kidneys and the kidneys are well as the same that the same that
